*"Mustafa has been a tremendous help to me. Before I became his client, my back, neck, and shoulders were a mass of knots and painful to the point of distraction. From our first session, the improvement was remarkable. Thanks to his patient, diligent work I have regained a freedom of movement that I had forgotten was possible, and my back pain has disappeared. I am very grateful to him!"*

*"Mustafa's knowledge of his subject and his skill in applying it, freed my back, shoulders and neck from tight and very sore muscle knots.*

*Through use of power and technique he released muscle tension built up over years and accepted as normal. Excellent therapeutic treatment with a nice personal manner."*
